

# Services NWS Can and Cannot Provide

Edward Fenelon  
NWS Chicago

# Services NWS Provides

- Publicize sources for obtaining official NWS warnings (both public and private)
- Work with private sources chosen by event organizers to assure access to NWS warnings
- Promptly inform Emergency Managers when weather may threaten life or property during special events
- Provide site-specific forecast upon request of public safety official if forecast is essential to public safety
- Provide outreach and educational support highlighting NWS core mission to save lives and protect property
- Work with large event venue management on implementation of StormReady

# Services Beyond the Scope of NWS Personnel

- Specialized, site specific forecasts or direct forecasting support to Special Event organizers
- Specialized weather support and consulting services to event organizers to help make decisions about how to plan, run, or manage the event
